About SSM Behavioral Health Services
A service of SSM Health Care – St. Louis, SSM Behavioral Health Services is the largest non-public provider of inpatient psychiatric treatment in Missouri, with 235 beds available across four campuses. Crisis intervention services are available on specialty treatment units serving children, adolescents, adults, adults with developmental disabilities and older adults. Outpatient day programs provide intensive outpatient and partial hospitalization treatment at three locations, and currently serve about 150 patients per day. SSM Behavioral Health Services works closely with a vast number of psychiatrists, psychologists and other mental health professionals to provide exceptional care across a wide range of psychiatric disorders. For more information, go to www.ssmhealth.com/behavioralhealth.

About SSM Breast Care
A service of SSM Health Care – St. Louis, SSM Breast Care combines powerful resources and expertise to offer the best possible care, from screening and diagnosis to treatment and follow-up support. Multidisciplinary care teams include breast fellowship-trained surgeons, radiologists and breast health specialists known as nurse navigators, who utilize some of the most advanced technology options available. This includes digital mammography, breast ultrasound, breast MRI and image-guided and stereotactic biopsy. SSM Breast Care is available at six locations across St. Louis and St. Charles counties. For more information, go to www.ssmhealth.com/breastcare.

About SSM Cancer Care
A service of SSM Health Care – St. Louis, SSM Cancer Care is a dedicated “cancer hospital” — not restricted to a single site, but to six SSM hospital locations across St. Louis and St. Charles counties. Each location offers patient-focused diagnosis, consultation and treatment, chemotherapy, radiation therapy, support services (nutrition counseling, social services and physical therapy), early detection screenings and support groups. SSM Cancer Care is accredited by the Commission on Cancer of the American College of Surgeons as offering a comprehensive program designed to treat the entire person — physically, emotionally and spiritually — as well as the needs of patients’ families. For more information, go to www.ssmhealth.com/cancer.

About SSM Center for Sleep Disorders
A service of SSM Health Care – St. Louis, SSM Center for Sleep Disorders is committed to relieving suffering from sleep issues that affect a person’s quality of life. The National Commission on Sleep Disorders has found that 40 million Americans are chronically ill with various sleep disorders. If not treated, a sleep disorder can greatly affect quality of life, mental and physical performance and lead to severe health conditions such as heart attack and stroke. Five convenient SSM Center for Sleep Disorders locations are available at SSM hospitals in St. Louis and St. Charles counties. A sleep center for pediatric patients is located at SSM Cardinal Glennon Children’s Medical Center. For more information, go to www.ssmhealth.com/sleep.
About SSM Fetal Care Institute
Part of SSM Maternity Care, the St. Louis Fetal Care Institute is a service of SSM Cardinal Glennon Children's Medical Center, in partnership with SSM St. Mary’s Health Center and the physicians of Saint Louis University School of Medicine. This comprehensive diagnostic and therapeutic program specializes in treating congenital problems and structural abnormalities in babies, both in the womb and after birth. The St. Louis Fetal Care Institute is the only comprehensive fetal care center in Missouri, and is also one of the only resources in the U.S. to offer open fetal surgery for life-threatening conditions that require intervention. For more information, go to www.ssmhealth.com/maternity/pages/fetalcareinstitute.

About SSM Heart Institute
A service of SSM Health Care – St. Louis, SSM Heart Institute is the St. Louis region’s most experienced provider of comprehensive heart care. A team of skilled cardiologists, electrophysiologists and cardiothoracic surgeons provides the most advanced treatment, advanced techniques and unparalleled experience for the best clinical outcomes. Combined with expert nursing and technical staff, this team offers a full range of services to prevent, diagnose and treat heart disease. SSM Heart Institute services are available at five SSM hospitals located in St. Louis and St. Charles counties. For more information, go to www.ssmhealth.com/heart.

About SSM Imaging
A service of SSM Health Care – St. Louis, SSM Imaging offers a full range of outpatient screening and diagnostic imaging services throughout the St. Louis and St. Charles region. Dedicated radiologists and imaging technologists employ advanced imaging technology for the most accurate information needed to diagnose cancer, heart disease and other serious medical conditions. SSM Imaging maintains the largest network of high-field open magnetic resonance imaging (MRI) units in metropolitan St. Louis, and is nationally recognized for its early implementation of the Epic electronic health record system. For more information, go to www.ssmhealth.com/imaging.

About SSM Maternity Care
A service of SSM Health Care – St. Louis, SSM Maternity Care’s medical relationships with Saint Louis University School of Medicine and SSM Cardinal Glennon Children’s Medical Center bring the experience and skills of numerous physician experts, including obstetricians and maternal/fetal medicine and neonatology specialists, plus the best available medical and surgical care for high-risk newborns. Five SSM Maternity Care hospital sites throughout St. Louis and St. Charles counties feature an advanced (Level II) nursery staffed by highly skilled physicians, nurses and specialists that include neonatologists and SSM Cardinal Glennon staff pediatricians. For the most complicated births, Level III newborn nurseries, or NICUs (neonatal intensive care unit), at SSM St. Mary’s Health Center and SSM Cardinal Glennon Children’s Medical Center have the equipment and expertise to care for babies born prematurely, before 32 weeks gestation or at very low birth weights. For more information, go to www.ssmhealth.com/maternity.

About SSM Neurosciences Institute
A service of SSM Health Care – St. Louis, SSM Neurosciences Institute provides specialized expertise to diagnose and treat a number of disorders that afflict the brain and nervous system, including stroke, spine ailments, epilepsy, Parkinson’s disease, Alzheimer’s disease, multiple sclerosis and more. An expert team of neurologists, neurosurgeons and neuro-interventionists
provides a full range of neurological care, using state-of-the-art diagnostic and treatment technology, including two biplane angiography suites. SSM Neurosciences Institute operates the St. Louis region’s leading network of stroke centers, with locations at five SSM hospitals throughout St. Louis and St. Charles counties. Each has achieved “Get With the Guidelines” recognition from the American Stroke Association. For more information, go to www.ssmhealth.com/neuro.

About SSM Orthopedics
A service of SSM Health Care – St. Louis, SSM Orthopedics offers a comprehensive program of prevention, diagnosis, treatment and rehabilitation of musculoskeletal disorders and injuries. More than 100 board-certified orthopedic surgeons apply the latest techniques and procedures for hip, knee, and shoulder replacements and reconstructions; hand, wrist, shoulder and elbow injuries; spine and back disorders; foot and ankle disabilities; musculoskeletal surgeries; and arthritis intervention. SSM Orthopedics’ multi-disciplinary team also includes board-certified physicians, specially trained nurses and therapists who deliver care at five SSM hospitals throughout St. Louis and St. Charles counties. SSM Orthopedics’ Joint Replacement Center at DePaul Health Center performs more joint replacements than any hospital in metropolitan St. Louis, and has received the Joint Commission’s “Gold Seal of Approval,” the first of its kind in Missouri. For more information, go to www.ssmhealth.com/orthopedics.

About SSM Pain Care
SSM Pain Care is the greater St. Louis region’s most comprehensive network of pain management centers. Board-certified pain medicine specialists provide advanced treatments from conservative medical management to state-of-the-art interventional procedures. Combined with expert nursing and technical staff, this team offers a full range of services to reduce or eliminate chronic pain. SSM Pain Care services are available at five SSM hospitals throughout St. Louis and St. Charles counties. For more information, go to www.ssmhealth.com/pain.

About SSM Weight-Loss Institute
A service of SSM Health Care – St. Louis, SSM Weight-Loss Institute is committed to relieving suffering from clinically severe obesity. SSM Weight-Loss Institute offers breakthrough surgical and non-surgical options at SSM DePaul Health Center and SSM St. Clare Health Center that can be tailored to fit a patient’s weight-lost goals. Surgeons from SSM Weight-Loss Institute have performed more than 5,000 life-changing and life-saving weight-loss surgeries to help patients to lead healthier, happier lives. A non-surgical medically supervised diet and exercise program called HMR® (Health Management Resources) is another SSM Weight-Loss Institute service. For more information, go to www.ssmhealth.com/weightloss.

Network/Hospital Boilerplates

About SSM Health Care – St. Louis
SSM Health Care – St. Louis’ mission statement — “Through our exceptional health care services, we reveal the healing presence of God” — is embodied by 11,000 employees and 2,500 staff physicians. Sponsored by the Franciscan Sisters of Mary, the health care network offers comprehensive health care
services, but specializes in heart, cancer, neurosciences, orthopedics, pediatrics, weight-loss, sleep, imaging, behavioral health and fetal surgery. A winner of the Missouri Quality Award and multiple Best Places to Work awards, SSM Health Care – St. Louis includes seven hospitals — Cardinal Glennon Children’s Medical Center, DePaul Health Center, St. Clare Health Center, St. Joseph Health Center, St. Joseph Health Center – Wentzville, St. Joseph Hospital West and St. Mary’s Health Center — St. Joseph Medical Park, plus a Managed Care Organization, and SSM Medical Group. Go to www.ssmhealth.com for more information.

About SSM Medical Group
SSM Medical Group is a member of SSM Health Care—St. Louis and includes more than 250 primary care and specialty service physicians throughout the greater St. Louis region. SSM Medical Group physician offices are located in north, south and mid St. Louis County; in St. Charles County; in Warrenton and Troy, Missouri; and in Belleville and Maryville, Illinois. Because SSM Medical Group physicians use electronic health records, patients’ charts are easily accessible at all SSM hospitals, providing caregivers the most complete and current health information for an individual patient. Additionally, all SSM Medical Group physicians offer their patients MyChart – convenient, secure access to one’s personal health record 24/7 online and as an app for mobile devices. For more information on MyChart and the physicians and specialists in the SSM Medical Group, visit www.ssmdrs.com.

About SSM Cardinal Glennon Children’s Medical Center
SSM Cardinal Glennon Children’s Medical Center, a 190-bed, not-for-profit pediatric medical center in mid-town St. Louis, treats children from across the U.S. and from countries around the world. It is a member of SSM Health Care – St. Louis, a Missouri Quality Award winner. SSM Cardinal Glennon is a Level 1 Pediatric Trauma Center and is home to a Level III Neonatal Intensive Care Unit, both the highest available classifications. There are also more than 60 medical specialty areas, including the St. Louis Fetal Care Institute, Dorothy and Larry Dallas Heart Center and Bob Costas Cancer Center. SSM Cardinal Glennon provides poison control services, perinatal outreach programs and a distributed network of pediatric programs throughout Missouri and Illinois. SSM Cardinal Glennon is a teaching hospital affiliated with the Saint Louis University Schools of Medicine and Nursing and nine other educational institutions. For more information, go to www.cardinalglennon.com.

About SSM St. Clare Health Center
SSM St. Clare Health Center, which opened March 30, 2009, is the first full-service hospital built in St. Louis County in 35 years. The 180-bed facility is a member of SSM Health Care-St. Louis, winner of the Missouri Quality Award. Located at the intersection of Hwy. 141 and Bowles Avenue in southwest St. Louis County, the hospital is one mile from I-44. The campus offers: the most advanced treatment for conditions affecting the brain and spine; a wide array of heart disease treatment options, including minimally invasive procedures; a comprehensive cancer center; emergency care; convenient outpatient imaging, testing and surgical services; general medical and surgical care; and the Family Birthplace and women’s services. SSM St. Clare Health Center has been recognized nationally for its design and advanced safety, comfort and
convenience features, and has won the Premier QUEST High Performing Hospital award. To learn more about the health center, go to [www.ssmstclare.com](http://www.ssmstclare.com).

**About SSM DePaul Health Center**

SSM DePaul Health Center is a 476-bed, full-service hospital located at the intersection of Interstates 70 and 270 in North St. Louis County. It is a member of SSM Health Care-St. Louis, a Missouri Quality Award recipient. Founded in 1828, SSM DePaul was the first hospital west of the Mississippi River and remains the oldest continuously existing business in St. Louis. Today SSM DePaul is a Joint Commission-certified Primary Stroke Center, operates the only Level II Trauma Center in its service region and offers the most advanced technology and procedures available including minimally invasive heart, spine, knee, hip and weight loss surgery. SSM DePaul also operates the most comprehensive robotic surgical program in the region and is a Premier QUEST High Performing Hospital award winner. To learn more, visit [www.ssmdepaul.com](http://www.ssmdepaul.com).

**About SSM St. Joseph Health Center**

Founded in 1885 and located in historic downtown St. Charles, Mo., SSM St. Joseph Health Center is a 356-bed acute care hospital that maintains a state-designated Level II Trauma Center, a nationally accredited Chest Pain Center and Primary Stroke Center and is a recipient of the Premier QUEST High Performing Hospital award. It is a member of SSM Health Care – St. Louis, a Missouri Quality Award winner. The facility offers a broad range of services and programs including SSM Cancer Care, the SSM Heart Institute, the Vascular Institute and SSM Center for Sleep Disorders. Along with SSM St. Joseph Hospital West, SSM St. Joseph Health Center is the largest health care provider serving St. Charles, Lincoln and Warren counties. For more information about SSM St. Joseph Health Center, visit [www.ssmstjoseph.com](http://www.ssmstjoseph.com).

**About SSM St. Joseph Health Center – Wentzville**

SSM St. Joseph Health Center – Wentzville has been providing high-quality health care to residents in western St. Charles, Warren, Lincoln and Montgomery counties since 1987. SSM St. Joseph Health Center – Wentzville currently offers a 24-hour emergency department and ambulatory services, as well as convenient access to outpatient programs, including diagnostic services such as radiology (MRI and CT), cardiology, pulmonary and rehab services. The facility is a member of SSM Health Care – St. Louis, winner of the Missouri Quality Award. Behavioral health inpatient care also is an integral part of the services offered at SSM St. Joseph Health Center – Wentzville. It is licensed for 77 inpatient behavioral health beds and offers inpatient medical management programs for drug, alcohol and health-related issues. For more information, go to [www.ssmstjoseph.com/sjwz](http://www.ssmstjoseph.com/sjwz).
About SSM St. Joseph Hospital West

The 122-bed acute care hospital maintains a state-designated Level III Trauma Center, a nationally accredited Chest Pain Center and Primary Stroke Center, and is a winner Premier QUEST High Performing Hospital Award. It is a member of SSM Health Care – St. Louis, a Missouri Quality Award winner. The facility offers a broad range of services and programs including SSM Cancer Care, SSM Neurosciences Institute, SSM Heart Institute and a dedicated pediatric emergency department. SSM St. Joseph Hospital West is the largest provider of health care services in western St. Charles, Warren and Lincoln counties. For more information about SSM St. Joseph Hospital West, visit www.ssmstjosephwest.com.

About SSM St. Joseph Medical Park
SSM St. Joseph Medical Park is a 100,000 square foot ambulatory care center situated on an 18-acre site in St. Peters, Mo. SSM St. Joseph Medical Park provides comprehensive outpatient services such as: imaging services, including advanced CT technology and comfortable, non-claustrophobic MRI facilities; an SSM Breast Care center with digital mammography services; an SSM Cancer Care center for diagnosis and treatment of cancer, as well as supportive care; and primary care and specialty physician offices. It is part of SSM Health Care - St. Louis, a Missouri Quality Award winner. For more information, go to www.ssmhealth.com/ssmsjmp.

About SSM St. Mary's Health Center
Conveniently located in Richmond Heights, Mo., SSM St. Mary's Health Center is a contemporary, 525-bed hospital with distinctive capabilities in high-risk obstetrical services, fetal surgery, state-of-the-art heart surgery, a chest pain center, advanced stroke care, and the latest imaging and outpatient services. Also a teaching hospital, SSM St. Mary’s Health Center is home to an accredited internal medicine residency program and to Saint Louis University School of Medicine’s Obstetrics/Gynecology and Family Practice residency programs. SSM St. Mary's Health Center is winner of the Premier QUEST High Performing Hospital award. It is a member of SSM Health Care – St. Louis, a Missouri Quality Award winner. To learn more, visit www.ssmhealth.com/stmarys.

About SSM Rehabilitation Hospital
As the leading provider of comprehensive rehabilitation services in the St. Louis area, SSM Rehabilitation Hospital delivers specialized care and advanced treatment that enables individuals with stroke, brain or spinal cord injury, neurological disorders, amputation, joint replacement and other orthopedic trauma, and general medical rehabilitation needs, to rebuild their lives. Through an innovative partnership between SSM Health Care – St. Louis and Select Medical, SSM Rehabilitation Hospital delivers an unparalleled continuum of care — from an
inpatient hospital program to a growing network of outpatient SSM Physical Therapy centers, as well as SSM Day Institute, SSM Homeward Bound and SSM WorkHealth programs. For more information, go to www.ssm-select.com.

About the SSM Health Care System
SSM Health Care is a Catholic, not-for-profit health system with an international reputation as a pioneer in the use of quality measures to improve care. With 6,500 physicians and 23,000 employees in four states, SSM is one of the largest employers in every community it serves. It is located in Wisconsin, Oklahoma, Illinois and Missouri. In every region, SSM facilities forge creative relationships in the community to foster healthier people and healthier neighborhoods. Through these relationships and at its various sites, SSM serves more than 2 million people annually.

An early adopter of the electronic health record, SSM provides care in a range of convenient settings, including hospitals, a pediatric medical center, outpatient centers, rural and inner city clinics, surgery centers, nursing homes, assisted living facilities, physician offices, an emergency center, rehabilitation facilities, home care, and hospice. SSM was the first health care organization to receive the Malcolm Baldrige National Quality Award, the nation’s highest award for quality.

Begun by five Catholic sisters with $5 and today sponsored by the Franciscan Sisters of Mary, SSM Health Care maintains the mission of its founding sisters by working to provide compassionate care and exceptional outcomes to patients and their loved ones.
