

STUDENT VALUES

After reflection about our own student experiences the Child Life Specialists here at SSM Health Cardinal Glennon Children's Hospital compiled some statements regarding our values about students and student culture

BELIEF WE HOLD IT TO BE TRUE THAT

- It is our responsibility to provide a nurturing, supportive, encouraging environment
- Students are competent and eager

VALUES WE HOLD IT TO BE IMPORTANT THAT

- Students feel welcomed, part of the team and at the end of the experience have a high regard for the Child Life program here and feel prepared for the next step

ETHICS WE SHOULD...

- Demonstrate patience, empathy and awareness for verbal/nonverbal communication that is nurturing and supportive
- Include students as part of our team

ACTIONS WHAT WE DO...

- Model professionalism, work ethic and high quality therapeutic interventions
- Engage fully with students
- Ask thought provoking questions
- Provide support throughout the whole student experience

OVERALL:

Each student deserves a positive learning environment while both student and teacher are expected to engage fully to improve and grow from the mutually beneficial relationship.
