

Commode

The following documentation is required to be in clinic visit/therapy notes from the treating provider within 12 months of the prescription for consideration of payment.

Diagnosis that is responsible for the patient needing a commode

Why the patient is physically incapable of utilizing regular toilet facilities and one of the following situations.

- a) The patient is confined to a single room, or
- b) The patient is confined to one level of the home environment and there is no toilet on that level, or
- c) The patient is confined to the home and there are no toilet facilities in the home

Heavy Duty Commode – The patient must weigh 300lbs or more to qualify

Drop Arm Commode - The patient needs this feature to facilitate transfers and/or has a body configuration that requires extra width
