

USAGE & CONTINUED NEED MEDICAL EQUIPMENT

Required Documentation: Usage and Continued Medical Need

Timely documentation which means in the preceding 12 months in the patient's medical record showing the patient continues to use the supply or rental piece of equipment and documentation explaining why the item (supply or rental equipment) continues to be medically necessary.

Required documentation for supplies: CPAP, ostomy, nebulizer, urological products, diabetic pump supplies, or enteral nutrition products

Required documentation for rental equipment: hospital beds, nebulizer, oxygen, group II mattresses, patient lifts, manual wheelchair, and some power wheelchairs.
