

Joyful Beginnings

Patient access

SSM Health St. Anthony Hospital is beginning construction on an exciting new West Entrance project. As this project begins, we want to share with you some helpful information about how to access Joyful Beginnings for your care and delivery. We thank you for understanding that direct access to Joyful Beginnings from Lee Avenue will not be possible beginning February 28, 2025, as Lee Ave. will be closed between 9th and 10th Streets for construction.

We hope the information below, as well as the map on the back, will assist you in reaching our facility seamlessly. **For non-emergency questions, please call 405-272-7000.**

Non-urgent care: Please park in the west parking garage from the new garage entry on 9th Street, near the 9th Street and Shartel intersection. Proceed to the garage elevator on the east side of the garage, taking it to the 1st floor to use the tunnel/concourse to the main hospital. Our helpful security staff or concierge team will provide you directions once you reach the concourse entrance.

Once you cross the concourse, you may use the main elevators to proceed to the 2nd floor and walk down the hall to Joyful Beginnings.

Urgent or emergency care: If your condition is potentially urgent or emergent, please proceed to the SSM Health St. Anthony Hospital Emergency Department located on the east side of the hospital, accessible from Walker Avenue. You will be transferred to Joyful Beginnings through the Emergency Department.

As a reminder, Lee Avenue will be closed beginning on February 28, 2025, and the Joyful Beginnings circle drive will be closed.

Thank you for choosing SSM Health St. Anthony Hospital for your care. We look forward to providing you with an exceptional health care experience.
